

NATIONAL LIQUIDATORS

Company Fact Sheet

Founded	Founded in 1988, National Liquidators (National) is one of the world's leading marine vessel recovery and remarketing firms, and has handled more than 23,000 files. National manages the recovery and seizure, transport, maintenance, storage, custody and resale of vessels of all sizes and purposes, including trailerable boats, cruisers, ocean-going yachts, cruise ships, tankers and cargo vessels.
Leadership	<p>G. Robert "Bob" Toney, president and CEO, has more than 30 years experience in asset recovery and sales, marine lending and finance. He is an industry expert and frequent conference speaker on court appointed custody, recovery, remarketing, and documentation issues. Bob is a former banking executive with experience in marine finance, consumer lending, commercial loan operations and workout transactions.</p> <p>National's leadership team also includes:</p> <ul style="list-style-type: none">▪ Matt Amata, VP, National Liquidators▪ Don Soutar, VP, National Maritime Services, international arrest/custody & US Govt. contracts,▪ Peggy Bodenreider, VP, Maritime Capital Group, a marine financing affiliate▪ Kevin Zimbrick, general manager of MariTech Services, a boat repair and maintenance affiliate
Boat & Ship Recovery & Custody	National Liquidators, and its affiliate, National Maritime Services, manage the recovery and custody of assets for banks, private lenders, and federal and local governmental agencies, including the U.S. Department of Justice and Homeland Security. National also represents all 10 of the largest marine lending institutions in the U.S. National's licensed recovery agents and captains accompany law enforcement agents in the arrest of vessels whose owners are in violation of the law, including loan defaults, unpaid taxes or fuel bills, or illegal activities such as drug or human smuggling. Once a boat is recovered, National provides clients with insurance, storage, maintenance, security, sales & documentation services, offering a comprehensive service matched by few others.
Remarketing & Sales	National Liquidators' licensed boat and yacht brokers work with both wholesale and retail buyers from around the world. National operates one of the nation's largest boat auctions, using a weekly sealed bid process unique to the marine industry. Inventory previews and bid forms are available at the company's online auction site, www.yachtauctions.com .
Web Leaders	National generates more than 5 million page views per month by advertising its inventory through two dozen domestic and foreign language boater and marine Web sites and publications. The company Web site has more than 2 million unique visits each month, and more than 1,000 boat buyers visit one of National's full service marinas each week.
Financing	Maritime Capital Group, an affiliate company, assists boat buyers obtaining loans above \$50,000, as well as securing boat insurance, title insurance and licensing documentation. The company also helps banks acquire or sell marine portfolios. www.maritimecapitalgroup.com
Maintenance & Repair	MariTech Services, www.maritechservices-fl.com , an affiliated company, provides comprehensive boat repair and maintenance services for both retail customers and National's boat inventory. Services include haul out and launch, fiberglass repair, engine/mechanical/electrical, detailing, bottom painting and repair.
Industry Affiliations	National's executives are active members of a number of marine, legal and lending organizations, including the National Marine Bankers Association, U.S. Maritime Law Association, Lake Erie Marine Trades Association, International Bar Association, Florida Yacht Brokers Association, Marine Industries of South Florida, Southeastern Admiralty Association, Pacific Admiralty Seminar, and International Seafarers Association, a non-profit organization that assists seafarers in need.
Locations	National Liquidators is headquartered in Fort Lauderdale, Florida, and operates in all 50 states and many foreign countries. The company has offices and/or marina facilities in Fort Lauderdale and Fort Myers, FLA; Capistrano Beach and Newport Beach, CA; and Cleveland, OH.
